

Notice to Mariners Notice 08 of 2017

Update on the opening date of East Farleigh Lock

Contractors working on behalf of the Environment Agency have completed the repair works to the large section of lock wall behind the left hand tail lock gate and will begin fitting the lock gates week commencing 26 June.

In addition to this we can confirm that four Grey Wagtails successfully fledged from the nest located in the lock structure and we have now recommenced all construction activities on the site.

We are now on programme to open the lock to the public on the 21 July.

The footpath and canoe portage remains passable.

We apologise for the inconvenience.

Simon Cox
Waterways Operations Manager, Upper Medway Navigation
